Organized by

P.G & Research Dept. of Zoology

**Government College for Women
(Autonomous)**

Kumbakonam - 612 001.

Tamilnadu.

About the Our College

Spiritually known as 'Bhaskara Kshetra', the temple known kumbakonam is known for its fertile soil and mind. Many intellectual giants like Srinivasa Ramanujan hailed from this town. On the banks of river Arasalar, an educational Institution as the second Government College exclusively for women in the entire State of Tamil Nadu was set up in the year 1963.

The College was reaccredited with 'B' level in the Year 2005 - 2006. The College was conferred "Autonomy" on 9th February 2007.

At present, the college offers 11 under Graduate Programmes and 11 Post Graduate programmes under Choice Based Credit System (CBCS). The impressive number of University rank holders in every academic year is an ample proof of the growing academic reputation of the institution.

Our Department

The Department of Zoology was started in the year 1969 in the prestigious institution. The department was upgraded as PG and Research Department from 2012. Our Department has many distinguished alumni who serve as doctors, professors, teachers and are also in public service. The staff members are actively doing research funded by UGC and TANCHE. The department has registered a steady growth, right from its inception strictly adhering to the goals of the institution to impart quality life science education to rural women who will transform the Society.

Rationale

Agriculture having little capacity to absorb surplus labour now, the rural population migrate to urban areas, creating numerous Social, Economic and hygiene complications. This scenario directs us to generate more employment opportunities and avenues in rural areas which should be economically viable, eco-friendly, technologically feasible and socially acceptable. We have replaced the importance of cow and her products due to modernization, industrialization and influence of western culture. But now we are realizing her immense potentialities. The utilization of indigenous Cow resources like cow urine, dung, milk, curd and ghee can be used for sustainable economic and rural development.

Thrust Areas

- Cow Based Economy development
- Panchagavya
- Vermi composting using Cow dung
- A₁ & A₂ Milk
- Medicinal value of Cow urine
- Products generated based on Cow resources.

Submission of Papers

Papers are invited from academicians and researchers in any area mentioned above. The participants are requested to send abstracts (250 words), typed in MS word, (Times New Roman font, size 12, Space 1.5) to the co-ordinator of the conference. The full papers will be published with ISBN Number. The soft copy should be sent to dr.s.venkatalakshmi@gcw.ac.in.

The last date for submission of Abstract : 28.2.2014
The Last date for submission of full Paper : 05.03.2014
Closing date for Registration 05.03.2014

Registration Fee : Rs. 500/-

The DD should be drawn in favour of Dr.S.Venkatalakshmi Payable at Kumbakonam
